IMPACT OF COVID -19 ON IPPF OPERATIONS

COVID -19 & SRHR Landscape 121 countries – 6 continents March 28-31 2020

- Online survey in 3 languages
- Round 1 analysis complete additional in-depth analysis underway
- Focus was to assess
 - Impact of COVID-19 on MAs operations
 - Impact on SRH services
 - Document response measures and opportunities
- 81% response rate (n=149) all six continents covered, 104 of 121 MAs provide SRH services

SCALE OF IMPACT ON SRHR ECOSYSTEM

Service Delivery points

66% of MAs (n=69) have closed sites

5,633 service delivery points closed

~1 in 5 of our static clinics (22%) have closed

SRH services offered

88% of MAs (n=92) have scaled down services

36 MAs have scaled down all SRH services

Others

- **1. HIV & AIDS** (44MAs)
- 2. Contraceptive services (41 MAs)
- 3. **SGBV services** (36 MAs)
- 4. Safe abortion services (23 MAs)

Loss of skilled workforce

12 MAs have already reported having to suspend/terminate 232 staff as a result of C-19

Loss of staff with the skills and values to provide rights based services to youth, adolescents, critical services (safe abortion, SGBV)

Commodity shortages

36% of MAs (n=37) indicate a shortage of key SRH commodities

Stock outs of Contraceptives (29 MAs), HIV medicines (16 MAs) and Safe abortion supplies (12 MAs)

59 MAs have delays in moving goods within countries

19 MAs have delays in clearing customs for shipments

CSO engagement

37 MAs engaged with National COVID-19 responses through redeployment of staff

Across the board
decrease in
advocacy related
meetings, community
consultations and
CSE sessions.

INNOVATION IN SRHR SERVICE PROVISION

Service provision through Telemedicine

9 MAs that use Telemedicine to provide SRH services – includes provision of SRH information, counselling, consultation and follow up care, or referrals

4 MAs offer clinical consultations through telemedicine - Australia, Estonia, Georgia, & The Philippines.

Digital provision of CSE

24 MAs currently offer CSE through social media, Whatsapp, Skype or other virtual channels

Morocco, Bosnia & Herzegovina has shifted to virtual approaches to provide services

Afghanistan has capacity to initiate hotlines to support further

Palestine is keen to scale up their current hotline (single line to multiple lines)

Other innovative approaches

12 MAs currently offer home delivery/doorstep delivery of SRH products like contraceptives, pregnancy test kits

MA in Puerto Rico has already piloted consultations for a week and has a matched grant of up to \$40,000 available for SRH services

MA in Ireland has received Govt approval to provide telephone consultations for urgent and time sensitive services

Interest from MAs in Benin, Burkina Faso, Cambodia, El Salvador, Haiti, India and Romania (among others)

How can we collaborate on IPPF's C-19 emergency response?

1. Support IPPF's C-19 efforts by contributing to the DG Emergency Fund

2. Provide match funding to IPPF's online Global C-19 Appeal

3. Partner with us to design new solutions/innovative approaches to protect SRH services and adapt to the changing environment
