

# DKT International Commitment

## **Narrative:**

DKT will build on our FP2020 commitment to expand women and girls' access to modern methods of contraception. By the end of the FP2020 commitment period, DKT reached women and girls in 38 FP2020 countries and generated over 14 million incremental CYPs between 2016-2020. DKT commits to generating 400 million non-abortion CYPs across more than 90 countries between 2021 and 2030 in support of FP2030 objectives. DKT International will also invest \$1 billion of discretionary resources, including the procurement of commodities with sales revenues, between 2021 and 2030.

## **Outcomes:**

DKT will generate 400 million non-abortion CYPs and invest \$1 billion of its discretionary resources and sales revenues (invested into product procurement) between 2021 and 2030.
